

# DRYER FOR FISHERY WORKWEAR AIR

Page | 1

Personal protective equipment is used day in day out, intensively, and in greatly varying temperature and weather conditions. The result: wet oilskins and boots. To start the next shift in comfortable attire, Pronomar is supplying an ingenious drying system.

Pronomar's robust systems will dry your PPE the easy way. The fishery clothing is dried from the inside out by means of warm air. The drying is fast and gentle, so that your valuable equipment receives the careful treatment it deserves.

**COMBO DRYER**  
for oilskins (V-neck)  
trousers, boots and  
gloves

**JACKET DRYER**  
for work jackets

for 10 pairs of  
gloves, compact  
solution

warm air

## Advantages

- + dry and hygienic equipment
- + body-shaped hangers (various possibilities)
- + stainless steel 304 or 316
- + lifespan PPE extends by 2-3 times
- + drying from inside-out
- + easy-to-operate
- + robust, nearly indestructible system
- + space-saving

## Features

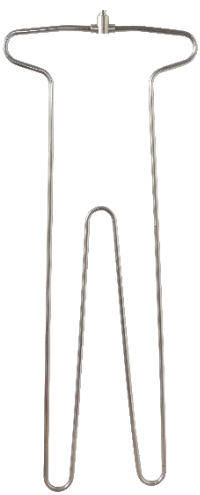

- + brushless, digital blower unit
- + no wear and tear parts
- + 8 years full warranty on stainless steel
- + suitable for wall-fixation, as freestanding unit or fixed to a mobile rack
- + designed for continuous use
- + equal and constant air flow
- + hangers detachable from air tube

You wear it,  
we dry it!

The clothes dryers are equipped with an easy-to-operate, one-hand coupling, ensuring that you can easily take off a hanger to redesign the system by attaching a different type.
